

Dear Retailer –

I noticed that you're not selling Avitae Caffeine Water products – some of my favorite caffeinated beverages – in your store. I'd like to share some information in hopes that you'll consider putting it on the shelves.

Avitae is simple and healthy – it's caffeine and water. Products are available with various caffeine levels, comparable to different amounts of coffee: a half-cup (45 milligrams), a cup (90 milligrams) or one and a half cups (125 milligrams).

With so many other caffeinated products and energy drinks out there with ingredients you can't pronounce, this is a great alternative for customers like me. I get the boost I need with zero sugar, zero calories, and nothing artificial added!

Avitae tastes great, too. You can drink unflavored caffeine water, or try one of four delicious flavors: Blackberry, Tangerine, Pomegranate Açai or Strawberry Guava. The Sparkling Water line also features unflavored and flavored options: Black Cherry, Raspberry Lime, Berry Kiwi, Watermelon and Mandarin Passion Fruit.

Other stores across the country have already jumped on the Avitae-fueled band-wagon and I'd love to be able to pick up my Avitae at your store in the near future.

Thanks for taking the time to read this letter. To get Avitae on your shelf and in your cooler, check out their website at www.goavitae.com email info@avitaehusa.com or call 888-228-4823!

Loyal Avitae Supporter!
